

February 29, 2024

Dear Salt River Elementary School Families,

This message is to let you know that emergency responders were called to campus today for a young student. The emergency response team checked the student and released the student to their parent. We want to recognize our secretary, Kyronna Roanhorse, for her swift, heroic action in assisting the student prior to the arrival of emergency responders. We wish the student a speedy recovery and look forward to seeing them back at school.

Your child may have questions about what happened today. This link from Nemours KidsHealth is an excellent resource for how to talk to children about various topics, including how, why, and when to call 911: <https://kidshealth.org/en/parents/911.html?ref=search>. If you have any other questions, please call SRES at 480-362-2400.

Thank you,

Dr. Amanda Guerrero
SRES Principal
